

Your HÜPPE shower is so easy
to clean and look after

Hints and tips
Cleaning and care

HÜPPE showers – designed to be easy to clean

For decades, the name HÜPPE has been synonymous with quality, functionality and performance. Features that our customers are looking for. We at HÜPPE want you to feel comfortable in your bathroom. And we know what you want from us - a showering space that satisfies your personal requirements right down to the finest detail.

That also applies to the cleaning and care of your HÜPPE shower. Our products are designed to make them as easy to clean as possible.

Take the simple tips in this leaflet to heart and you'll enjoy your HÜPPE shower for years to come.

Cleaning and care – with the greatest of pleasure.

Optimum technology – minimum expense!

Anti-Plaque

Modern glass

finishes ensure that water simply pearls off any glass treated with HÜPPE Anti-Plaque. This keeps dirt and limescale deposits to a minimum and makes cleaning your shower a pleasure.

Folding panels

On many HÜPPE sliding doors, the individual panels can be unhooked from the lower guide rails and folded inwards, meaning there are practically no more inaccessible areas.

MicroLip

The innovative MicroLip sealing technology is an easy-clean, completely restyled sealing system. No more limescale or discolouration of large sealing strips – a guarantee of easy cleaning and care.

Flush-fitting hinges

Flush-fitting hinges make care and cleaning of your shower enclosure much simpler.

Perfect shower care you can rely on

TOP

Cleans the anti-slip surface of your shower tray. Specially formulated for acrylic shower trays. Ecologically tested. Biologically degradable.

TOP PLUS

Suitable for all bathroom surfaces. Perfect for cleaning HÜPPE Anti-Plaque safety glass and chrome surfaces. Ecologically tested. Biologically degradable.

FLIP

Cleans all washable surfaces in the bathroom. Ideal for acrylic glass. Ecologically tested. Biologically degradable.

Wiper

For the quick wipe-over after each shower.

Cleaning and care – with tried and tested products.

Ideal for all surfaces

Clear safety glass

Safety glass is generally easier to clean than an acrylic surface. However, as drops of water and limescale deposits are easier to see, safety glass surfaces also have to be cleaned regularly with TOP PLUS.

Anti-Plaques safety glass

Clear, easy-clean HÜPPE Anti-Plaques safety glass allows water to pearl off. The result – fewer dirt and limescale deposits. Those that remain can simply be wiped off without the need for abrasive detergents. For best results, use TOP PLUS from HÜPPE.

Acrylic

Acrylic may not appear to be dirty. It should however be thoroughly cleaned occasionally using HÜPPE FLIP.

Ideal for all surfaces

Shower trays

Bathroom-grade acrylic may not appear to be dirty. However, your shower tray should be thoroughly cleaned occasionally using HÜPPE TOP.

Chrome surfaces

For the very best results use HÜPPE TOP PLUS cleaner. After cleaning, the chrome surface can be easily wiped dry with a leather cloth. Detergents and disinfectants containing alcohol, chlorine or acid must not be used under any circumstances. Abrasive detergents are also unsuitable. We only recommend HÜPPE Top Plus cleaner for chrome surfaces.

Cleaning and care – with the best results.

Fewer handles – more glitz

Routine cleaning

Recommended cleaning interval: Each time you use the shower

- Spray down the shower enclosure with clean water
- Wipe off any remaining drops with the wiper
- Ensure the bathroom is adequately ventilated

Thorough cleaning

Recommended cleaning interval: Between once a week and once a month, depending on how often the shower is used and the quality of the water

- Using special HÜPPE detergents, clean shower enclosure as directed
- Spray down with cold water
- Wipe off any remaining drops with the wiper
- Ensure the bathroom is adequately ventilated
